

## RESTRICTION REQUIREMENT

Restriction is required between the following inventions under 35 U.S.C. 121:

I) Claims 1-5, drawn to compounds classified in class 548 and numerous subclasses.

II) Claim 6, drawn to an inhibitor of sugar chain related enzyme classified in class 548 and several subclasses.

III) Claims 7-9, drawn to a medicine and its method of uses classified in class 514.

IV) Claims 10 and 11, drawn to a method for producing a compound classified in classes 548 and numerous subclasses.

The Requirement has therefore required that an election be made between these inventions.

The Examiner has also determined that an election of a single compound is further required upon the election of any one of Groups I-IV.

## ELECTION

In response to the Restriction Requirement, Applicants elect the invention of Group I, claims 1-5, and the compound of the formula (I) wherein  $R^1$  is H,  $R^2$  is  $CH_2OH$ ,  $R^3$  is H,  $R^4$  is H, X is  $N(R^5)R^6$  where  $R^5$  is H and  $R^6$  is  $CH_2-CH_2-C_6H_5$ , and Y is H, i.e., Compound 2(8.1). With regard to the election of species, reference is made to Applicants' disclosure, including the Examples and Fig. 3.
